Re: Bullis Charter School Proposition 39 Response to Final Offer 2012-2013

Dear Superintendent Baier:

This letter serves as Bullis Charter School's (BCS's) notification, pursuant to Section 11969.9(i) of the Prop. 39 Implementing Regulations, of BCS's intent to occupy the facilities offered in the Los Altos School District ("the District") Final Offer dated March 31, 2012. BCS is disappointed that the District has failed to cure the deficiencies that are in the District's Preliminary Offer of Facilities. Unfortunately, the District introduced new deficiencies in the Final Offer. However, BCS needs facilities to continue educating our public school students.

Therefore, at the direction of the Board of Directors of Bullis Charter School, I write to inform the District that BCS intends to occupy the space offered in the District's statutory Final Offer of facilities for 2012-2013, made on or about March 31, 2012.

We will continue to work with your office to ensure that our students are provided with reasonably equivalent facilities.

Sincerely,

Janet C. Medlin
Member, BCS Board of Directors
